

Seamless management of members and billing

The Cilantro Add-on for OfficeRnD and PaperCut Hive that simplifies user management, automates billing and streamlines the onboarding process for new members.

Streamline Member Onboarding

When a new member is added to OfficeRnD, this automatically adds the member to PaperCut Hive and an invitation email is then sent, providing instant access to the print environment.

Simple Member Management

All member updates in OfficeRnD will synchronise the changes with PaperCut Hive. This removes any manual data updates, increasing productivity, whilst providing seamless member management.

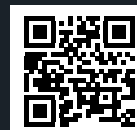

Automated Billing

For easy and efficient billing, use the OfficeRnD product plans. Alternatively create specific print, copy and scanning charges. Transactions are billed according to the members requirements improving data visibility and billing accuracy.

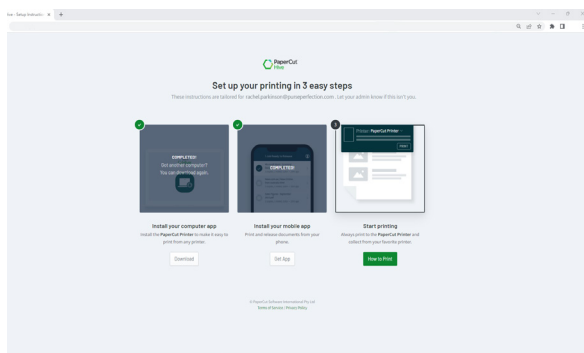

Want to see the solution in action?

Easy Printing

PaperCut Hive, with its serverless printing, makes printing simple. Members print from any device to a single print queue and securely release their print job using their mobile phone or the MFP/MFD's touchscreen.

Simple Set Up

New members automatically receive the PaperCut Hive invitation to access the print environment. Set up is a breeze. Members simply follow the three easy steps in the invitation email and start printing.

Secure Printing

PaperCut Hive has security features built in to protect data before, during and after printing. Secure print release requires members to authenticate at the device ensuring that print jobs aren't left unattended, exposing sensitive data.
