

# Stripe Payments for PaperCut MF Account Top-Ups

A Cilantro integration that brings together PaperCut MF and Stripe Payments, allowing users to easily top-up their PaperCut MF accounts.

Stripe is the largest private fintech company and a global giant in payment processing, renowned for its secure, reliable transactions worldwide. With this solution, users can make quick, secure top-ups, directly through their preferred method, without any hassle.

## Convenience

The intuitive interface allows for effortless and instant online account recharges from the user's PaperCut MF dashboard. This streamlines the process and eliminates the need for manual top-ups or any frustrating waiting periods. Both system admins and users have access to reporting through Stripe or Cilantro providing visibility into transaction histories.

## Flexibility

Users have the flexibility to choose from credit cards and debit cards or digital wallets like Apple Pay and Google Pay. Depending on the customer's Stripe setup, payments can be accepted from over 40 different platforms, including VISA and Mastercard. To simplify the process, refunds are managed directly through Stripe.

## Security

All transactions are processed through Stripe's secure payment gateway. This complies with PCI DSS (Payment Card Industry Data Security Standard) regulations, ensuring the highest level of protection for users' financial data. Additionally, the Cilantro platform has implemented reCAPTCHA to further enhance security and safeguard user transactions.

## How does it work?

### User Initiates Payment

The user logs in to their PaperCut MF account and selects the option to top-up their account.

### Payment Processed

The user enters their payment details, and Stripe securely processes the payment.

### Instant Account Update

Once the payment is confirmed, the PaperCut account is instantly recharged, allowing the user to continue printing or copying without interruption.

## Why this solution?

### Competitive Edge

Offer a unique, convenient payment solution that enhances the value proposition to customers.

### Customer Retention

With easier and more frequent account top-ups, customers are more likely to rely on PaperCut services.

### Minimal Setup and Maintenance

Our integration is designed to be easy to set up and requires minimal ongoing maintenance.

### Comprehensive Support

Enjoy the full backing of Taco Technologies' expert support team to assist with any questions or technical needs.
